### **DETAILED ACTION**

This is in response to application filed on 10/19/01 in which claim 1 is presented for examination.

#### ***Information Disclosure Statement***

The information disclosure statement filed on 10/19/01 and 05/29/02 are in compliance with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609. Because it has been placed in the application file, and the information referred to therein has been considered as to the merits.

#### ***Double Patenting***

Claim 1 is rejected under the judicially created doctrine of double patenting over claim 1 of U. S. Patent No. 6338069 since the claim, if allowed, would improperly extend the "right to exclude" already granted in the patent.

The subject matter claimed in the instant application is fully disclosed in the patent and is covered by the patent since the patent and the application are claiming common subject matter, as follows: A machine readable medium having stored thereon: a function requiring a set of one or more input parameters; a first object including, a first structure storing a key for each of said set of input parameters, and an action method, which when applied by a processor, causes that processor to invoke an action unit; and a second object including, a first structure to store data for identifying, for each of said set of input parameters, the corresponding key and a value for that input parameter, a second structure identifying said first object, and an execute method, which when applied by a processor, causes that processor to apply said action method; said action unit including instructions, which when executed by a processor, cause that processor to, access said values, and invoke said function using said values as input parameters

Art Unit: 2171

Furthermore, there is no apparent reason why applicant was prevented from presenting claims corresponding to those of the instant application during prosecution of the application which matured into a patent. See *In re Schneller*, 397 F.2d 350, 158 USPQ 210 (CCPA 1968). See also MPEP § 804.
